

Galley Faucet Cartridge Replacement

Our Catalina 36 galley faucet started to leak few months ago and get the pressure pump to start few times a night.

After some research on my usual source information concerning our vessel, I found a comment including the exact specs of the parts I need to order.

<https://www.catalina36.org/comment/52526#comment-52526>

Hot cartridge part number: 45-883

Cold cartridge part number: 45-882

After a quick search for the best price the two parts are ordered!

New & Modern cartridge installed

Ready to test!

Over all it was an easy project with a great output. No forcing anymore to get the water to run or to stop.
